

# OUR STORY CONTINUES

Over the past three years, we have enjoyed sharing our story with you in *The Story of Xinhua Finance, Volumes I, II* and in this our *Volume III – 2005-2007*. These volumes encompass what we have achieved and tell of the great possibilities that we have realized and continue to see for our company going forward. We are and will remain visionaries in taking Xinhua Finance to its next level of development to the benefit of our clients, partners, shareholders and employees. We will maintain our China-focused strategy as we look to retain our leadership position in all of our service lines while expanding our horizons within our content and distribution businesses.

We look forward to updating you next year.
